

There are changes evolving to the school meals program as a result of the Healthy Hunger Free Kids Act of 2010. This is historic legislation marking the most comprehensive changes to the school nutrition environment in more than a generation. New standards are in effect, and your child will see offerings of more whole grains, fruits, and vegetables. In order to stay within the minimum and maximums for grains, meats, and calories, portion sizes may be reduced from what was previously offered.
