

Presented by Michael Callahan from Marc Gold and Associates
Hosted by The Arc of Pennsylvania

Discovery Training and Customized Employment

The Discovery process guides transition-aged youth, their families, and their care providers to obtaining sustainable employment for people with significant disabilities. It focuses on matching an individual's strengths, interests, and accommodations with an employer. Designated a best practice by the US Department of Labor, come learn how to apply this strategy to transition and individual support plans. These trainings are offered at no cost to you thanks to a generous grant from The Stabler Foundation and support from The Arc of Somerset.

This free training is available at three locations
